

TO: Primary Care Physician
FROM: Genesis Counseling Center

Individual counseling with a Licensed Professional Counselor will be helpful for this client. The client's insurance, *Tricare*, requires the *Primary Care Physician* write a *prescription for individual therapy for clients needing to schedule with Licensed Professional Counselors*. This will be beneficial for the individual treatment of this client.

The prescription simply needs to state: "[Client's name] to receive individual therapy at Genesis Counseling Center".

Thank you.
